<b>Office Action Summary</b>	<b>Application No.</b> 10/725,678	<b>Applicant(s)</b> DINKINS, HOWARD J.	
	<b>Examiner</b> Marie Patterson	<b>Art Unit</b> 3728	

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Claim Rejections - 35 USC § 112***

1. Claims 3 and 11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 3 the phrase "cup-like" and in claim 11 the phrase "apex" are vague and indefinite because it is not clear what structural limitations applicant intends to encompass with such language.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-5, 8-11, 13, and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Allen (4872271).

Allen shows a heel protector comprising a main body (24), an elastic hem (20), and a bottom member/reinforcement (22) as claimed.

4. Claims 1-6, 9-13, 16, 18, and 19 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Charles (1945420).

***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 3728

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 7, 15, and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Charles.

Charles discloses the claimed invention except for the exact material for the main body. It would have been obvious to one having ordinary skill in the art at the time the invention was made to use a polymer foam, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. In re Leshin, 125 USPQ 416.

7. Claims 8, 14, and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Charles in view of Watson (1350190).

Charles shows a heel guard substantially as claimed except for a hi heel aperture. Watson teaches providing a hi heel aperture in a bottom member (figure 1) to allow heels of different heights to be used with the guard. It would have been obvious to provide an aperture as taught by Watson in the bottom of the guard of Charles to allow the guard to be used with different heel heights.

1. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
